## Top Drive Gear Oil Filter Change

---

Canrig has changed the recommended gear oil filter for all models of Canrig Top Drives, except for those with a duplex filter configuration. The recommended gear oil filter is the Canrig provided P/N: H14928.

Filters other than the Canrig provided, should meet the minimum requirement of Beta ratio greater than or equal to two hundred for particle sizes between twenty microns and twenty-five microns ( $\beta_{20\mu-25\mu} \geq 200$ ).

Contact [parts.sales@canrig.com](mailto:parts.sales@canrig.com) to order the new filter.

Qty	Canrig P/N: Old Filter	Canrig P/N: New Filter	New Filter Description
